Introduction: General navigation instructions in the Sigma-Doctorado application

- Although the application is compatible with any browser, Mozilla Firefox is recommended.
- VERY IMPORTANT: Your application details are only saved when you complete your application, in the Confirm Application (= “*Confirmar solicitud*”) section, so you must complete the application in a single session.
- If you wish to modify a field that has already been filled in, you must delete all of the content.
- If you wish to return to a previous screen, you must complete the screen you are currently on.
- To advance to the next screen, click Continue (= “*Continuar*”) or Next (= “*Siguiente*”).

1. Preliminary preparations: User name and password for access

a. Students who have already been enrolled at the University of Valladolid

The username and password for access are the same as those used in other UVA applications.

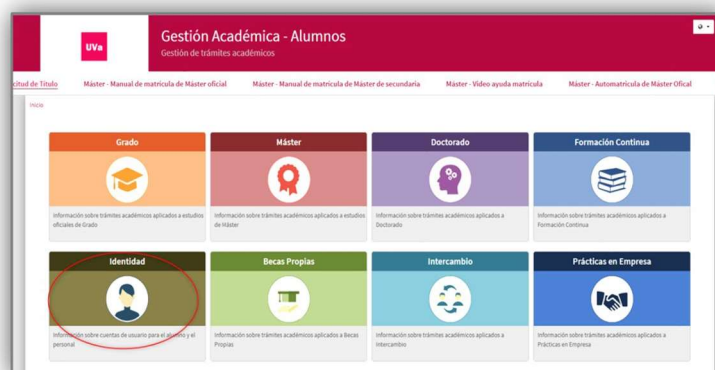

The user field consists of e+eight digits of the ID+ID letter. (Example: e09876543k). If you do not have an ID number, the user has the format u+eight digits+letter.

b. Students who have NOT been enrolled at the University of Valladolid

You will obtain your username and password by clicking on "Register me for doctoral pre-registration" (=“*Regístrate para Preinscripción Doctorado*”).

If you have forgotten your password, you can get it from the “Get/Retrieve Password” (= “*Obtener/Recuperar Contraseña*”) option in the "Identity" menu at <http://sigma.uva.es/Inicio/Alumnos>

2. Access to the application

From the following address: <http://sigma.uva.es/Inicio/Alumnos>

You must click on “Doctorate pre-registration” (=“*Preinscripción Doctorado*”).

3. Pre-registration in doctoral studies

Log in, filling in your username and password:

You will have to follow the different screens, always clicking on the next button until you reach the end in order to confirm the application, in a single session.

a) Home screen

Click on “New pre-enrolment” (=“*Nueva preinscripción*”) and select the doctoral programme you wish to pre-enrol in:

As a general rule, doctoral studies are taken on a full-time basis. However, you can apply for part-time enrolment if you meet the requirements (working, caring for a family member, high-level athlete, disability equal to or greater than 33%, etc.), by clicking on the corresponding option. In this case, please include the part-time student status application document in the “attach documents” (= “*adjuntar documentos*”) section.

b) Personal details screen

The application will automatically retrieve the data you have previously included in the REGISTRATION process, or those that already exist as a UVa student.

Check all these details and modify and/or complete those that are necessary, so that they are shown as they appear in your ID/Passport, without abbreviations and correctly accented:

Below the progress bar is a form titled 'TUTOR' with a dropdown menu. The dropdown menu is open, showing a list of names under the heading 'Tutores del plan'. There are also icons for 'Información adicional' and a search icon.

Exceptionally, in the case of doctoral programmes taken through national and international collaboration on a thesis co-supervision or industrial doctorate basis, or when there are academic or interdisciplinary reasons, there may be three directors.

- If the thesis supervisor is from outside the University of Valladolid, you must fill in all their details:

- The thesis must be taken in one or more of the **lines of research** of the programme according to the drop-down menu.

Important: your proposal will be sent to the academic committee of the doctoral programme, who will finally accept or reject your application and appoint your tutor and thesis supervisor. They may also modify the proposal you are making at this time.
