## INITIAL RESEARCH AND TRAINING PLAN

Academic Year:

**Thesis title:**

**PhD candidate:**

Family name

First name:

**PhD Programme:**

**Thesis supervisor**

Name

**Co-supervisor**

Name:

**Tutor**

Name:

### RESEARCH PLAN

#### **1. Background and state of the art**

Indicate in general terms the background and context in which the research plan is proposed, including hypotheses and their justification, research problems to be addressed, reasons for carrying out the study, and the theoretical framework of which it forms part.

Universidad de Valladolid

### **1.1. Previous experience of the Research Group**

Include a brief description of the research group's background in the proposed topic.

## **2. Objectives and approach**

Explain the general objective and specific objectives of this research. Describe the milestones or partial achievements proposed to attain these objectives.

## **3. Methodology**

Describe the methodological design to be followed to achieve the objectives.

## **4. Work plan**

Timeline of the plan of activities and tasks, indicating their sequentiality and estimated schedule in months, taking into account the duration of PhD studies established in current legislation.

Universidad de Valladolid

## 5. Material Resources and Financing

Indicate the means available and the financial support for the research.

## 6. Research results and impact

Refer to the expected results and their applicability and innovative potential, if appropriate. Describe the means proposed to disseminate the results of the thesis, in accordance with the expectations described and the topicality of the proposed topic and evidence of quality.

## 7. Initial bibliography

Include the complete reference of the documentation or material to be taken as a starting point.
